

Wrong About You: what five AI engines state about 70 software vendors

Broadcastwell Research, Study 6, 9 October 2026. CC BY 4.0. DOI [10.5281/zenodo.23270124](https://doi.org/10.5281/zenodo.23270124). Data and code: <https://github.com/Broadcastwell/wrong-about-you-2026-10>.

Prepared by the Broadcastwell team

Answers captured under method v1.1 on 22 to 23 Sep 2026 for the Absence Index release 2026-09 (DOI [10.5281/zenodo.22907695](https://doi.org/10.5281/zenodo.22907695)). Statements were extracted and classified under the published Record rules and checked against each vendor's own public pages. Every flagged statement is published with its engine, run, question, capture date and the vendor page it was checked against. Team review of the flagged statements is in progress; rows change only if the review changes them, and every change is logged in the public ledger.

The findings

- 5346 answers named the 70 vendors (the five most named in each of 14 categories of the Absence Index release 2026-09).
- They made 2922 factual statements about those vendors (one claim as stated by one engine): 1924 true, 113 wrong, 5 stale and 880 unverifiable against the vendors' own pages.
- Wrong or stale among verifiable statements: 118 of 2042 (5.8 percent, 95 percent interval 4.8 to 6.9).
- Answers carrying at least one wrong or stale statement about the vendor they name: 175 of 5346 (3.3 percent, 95 percent interval 2.8 to 3.8).

Unverifiable counts as neither right nor wrong. Counts come before rates; every rate carries a 95 percent Wilson interval, descriptive because statements from one answer or one engine are not independent.

Per engine

Engine	Statements	True	Wrong	Stale	Unverifiable	Wrong or stale among verifiable
ChatGPT	647	575	0	0	72	0 of 575 (0.0 percent, 95 percent interval 0.0 to 0.7)
Claude	1177	605	77	2	493	79 of 684 (11.5 percent, 95 percent interval 9.4 to 14.2)
Perplexity	150	113	4	0	33	4 of 117 (3.4 percent, 95 percent interval 1.3 to 8.5)
Google AI Overviews	496	316	25	2	153	27 of 343 (7.9 percent, 95 percent interval 5.5 to 11.2)
Google AI Mode	452	315	7	1	129	8 of 323 (2.5 percent, 95 percent interval 1.3 to 4.8)

Per category

Category	Statements	True	Wrong	Stale	Unverifiable	Wrong or stale among verifiable
Construction project management software	217	138	9	0	70	9 of 147 (6.1 percent, 95 percent interval 3.3 to 11.2)
Dealership management systems	272	184	11	0	77	11 of 195 (5.6 percent, 95 percent interval 3.2 to 9.8)
Dental practice management software	221	145	13	4	59	17 of 162 (10.5 percent, 95 percent interval 6.7 to 16.2)
Field service management software	241	166	5	0	70	5 of 171 (2.9 percent, 95 percent interval 1.3 to 6.7)
Hotel property management software	153	119	2	0	32	2 of 121 (1.7 percent, 95 percent interval 0.5 to 5.8)
Insurance agency management systems	244	139	6	0	99	6 of 145 (4.1 percent, 95 percent interval 1.9 to 8.7)
Legal practice management software	300	149	34	0	117	34 of 183 (18.6 percent, 95 percent interval 13.6 to 24.8)
Loan origination and lending software	111	69	0	1	41	1 of 70 (1.4 percent, 95 percent interval 0.3 to 7.7)
Radiology and medical imaging software	146	110	0	0	36	0 of 110 (0.0 percent, 95 percent interval 0.0 to 3.4)
Residential property management software	377	261	15	0	101	15 of 276 (5.4 percent, 95 percent interval 3.3 to 8.8)
Transportation management systems	159	106	4	0	49	4 of 110 (3.6 percent, 95 percent interval 1.4 to 9.0)
Veterinary practice management software	247	164	7	0	76	7 of 171 (4.1 percent, 95 percent interval 2.0 to 8.2)
CRM	192	136	6	0	50	6 of 142 (4.2 percent, 95 percent interval 2.0 to 8.9)
Project management	42	38	1	0	3	1 of 39 (2.6 percent, 95 percent interval 0.5 to 13.2)

What kind of statement

Type	Statements	True	Wrong	Stale	Unverifiable
pricing	1034	539	76	4	415
plans	388	274	9	0	105
free tier	90	61	8	0	21
founding	32	20	2	0	10
ownership	72	62	3	0	7
headquarters	3	2	0	0	1
product names	395	289	4	1	101
integrations	391	292	2	0	97
platforms	435	348	7	0	80
certifications	12	7	0	0	5
customer counts	44	20	2	0	22
acquisitions	23	8	0	0	15
discontinued	3	2	0	0	1

Where the wrong and stale statements came from

Causing page	Claims
own page	1
directory	3
review site	3
press	0
forum	0
other	43
cause not found	50

How sure: in how many of the three runs the engine said it

Stated in	True	Wrong	Stale	Unverifiable
1 of 3 runs	714	71	3	483
2 of 3 runs	420	16	2	213
3 of 3 runs	790	26	0	184

Every vendor, with its category median

Category	Vendor	Answers	Wrong (median)	Stale (median)	Unverifiable (median)	True (median)	Review

Method

Answers. Every valid target answer in the Absence Index release 2026-09 that names one of the 70 vendors under the release's own matching rule; their number equals each vendor's published named count. Five engines (ChatGPT, Claude, Perplexity, Google AI Overviews and Google AI Mode), ten buyer questions per category, three scheduled runs, captured under method v1.1 on 22 to 23 Sep 2026 for the Absence Index release 2026-09 (DOI 10.5281/zenodo.22907695). No new answer was captured for this study.

Statements and classes. Thirteen statement types: pricing, plans, free tier, founding, ownership, headquarters, product names, integrations, platforms, certifications, customer counts, acquisitions and discontinued products. Each claim is classed true, wrong, stale or unverifiable under the published Record rules (broadcastwell.com/methodology#record-rules) against the vendor's own pages read once on 8 October 2026, with a verbatim quote from the page for every true, wrong or stale claim. A script checks every quote against the deposit and the page read. Every row shows its actual review state. Only a statement signed by two distinct analysts with a real date may show the verified mark. Review changes are logged in `data/review_log.csv`; source provenance corrections are logged in `data/provenance_log.csv`.

Causes and confidence. A wrong or stale claim's causing page is a page cited by the answers carrying it that carries the statement, typed own page, directory, review site, press, forum or other; otherwise "cause not found". Confidence is the number of the three runs in which the engine stated the claim.

Differences from the Record Check. The Record Check captures fresh answers by hand and a reviewer classes them. This study reuses the September answers, traces causes through the answers' own citations only, and reads the vendors' pages on 8 October 2026. A page whose robots.txt disallows automated agents was not read; its claims stay unverifiable.

What this does not prove

Wrong About You records what five AI engines stated about 70 vendors in answer to buyer questions on stated dates, classed against each vendor's own published facts. It makes no claim about what any buyer was told or decided. "Wrong" means the statement contradicted the vendor's published fact on the capture date; "stale" means it was true before a documented change; "unverifiable" means the vendor's own pages did not settle it. A causing page is the page that carried the statement, not proof that the engine read it. The vendors are the subjects of the engines' statements, not their authors; a wrong statement about a vendor says nothing about the vendor's product.

Disputes and citation

Any named company may request one no-cost re-run at index@broadcastwell.com; both results are published.
