Kalvenor Systems

Field service management software

Order	SAMPLE-KALVENOR-FICTIONAL	Method	v1.1
Answers captured	2026-07-08 to 2026-07-12	Delivered	2026-07-14

Five engines: ChatGPT, Claude, Perplexity, Google AI Overviews and Google AI Mode. Ten buyer questions, three runs each. 150 planned answers, 147 valid, 3 excluded.

Verdict 2
Question by question 3
Scope, exclusions and crawler access 4
Who is named instead 5
The sources those answers cite 6
Three fixes 7
CMO summary 8
Finance memo 9
Receipts 10
Credit note 26

Accountable: Sairam Sivakumar, Founder, Broadcastwell.

Kalvenor Systems is a fictional company. Its competitors, every source domain (.example) and every answer in this file are sample data from the public sample at app.broadcastwell.com/sample: the ten shortlist questions of that sample across its three scheduled runs. Nothing here describes a real vendor.

Verdict

Kalvenor Systems was named in 47 of 147 answers to the ten buyer questions.

47

of 147 valid answers

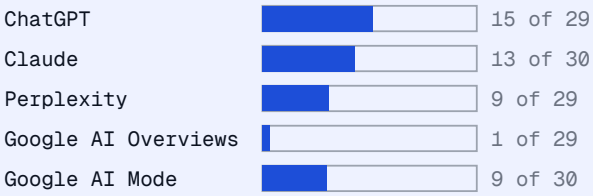

32.0%

95% interval 25.0% to 39.9%

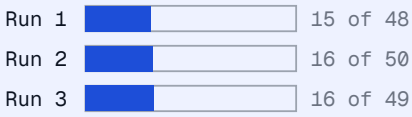

named on 8 of 10 questions

1. **Who takes your place.** Northvale FSM was named in 74 of the 100 answers that left Kalvenor Systems out; Asterforge in 30, Trakwell in 27.
2. **Where you lose.** Named 0 of 15 on q5, q10. Strongest engine ChatGPT (15 of 30), weakest Google AI Overviews (1 of 30). Run to run: 15 of 48, 16 of 50, 16 of 49, spread 1.
3. **What moves it.** Three fixes with an owner and a done check each. The recheck signal is every run above today's highest run, 16 of 50.

BY ENGINE, NAMED OF VALID ANSWERS

BY RUN, NAMED OF VALID ANSWERS

Single-turn, logged-out answers, US English, captured 2026-07-08 to 2026-07-12. AI answers vary by run, date and account, so each question ran three times and the spread is reported. This is an observed baseline, not a ranking and not a statement about product quality.

Question by question

#	QUESTION	NAMED	ENGINES THAT NAMED YOU	MOST NAMED ON THIS QUESTION
q1	What is field service management software?	5 of 15	ChatGPT, Claude, Google AI Overviews, Perplexity	Northvale FSM (12); Trakwell (7); Orbit Field (6)
q2	Which software helps a company schedule and dispatch field technicians?	5 of 14	ChatGPT, Claude, Google AI Mode, Perplexity	Northvale FSM (8); Asterforge (8); Orbit Field (8)
q3	What are the strongest field service management platforms for a mid sized service business?	8 of 14	ChatGPT, Claude, Google AI Mode, Perplexity	Northvale FSM (11); Cindermark (9); Trakwell (7)
q4	What features should field service management software include?	5 of 15	ChatGPT, Claude, Google AI Mode	Northvale FSM (13); Orbit Field (7); Trakwell (5)
q5	How does field service management software differ from general work order software?	0 of 15	none	Northvale FSM (11); Asterforge (9); Cindermark (9)
q6	Which field service platforms handle recurring maintenance contracts?	5 of 15	ChatGPT, Claude, Google AI Mode, Perplexity	Northvale FSM (12); Asterforge (8); Trakwell (6)
q7	What software tracks technician time and the parts used on a job?	8 of 15	ChatGPT, Claude, Google AI Mode, Perplexity	Northvale FSM (14); Trakwell (4)
q8	Which field service management systems keep working offline in the field?	3 of 14	ChatGPT, Claude, Perplexity	Northvale FSM (11); Verano FSM (6); Asterforge (5)
q9	What software is used to manage a mobile service workforce?	8 of 15	ChatGPT, Claude, Google AI Mode, Perplexity	Northvale FSM (9); Cindermark (9); Trakwell (7)
q10	Which platforms combine scheduling, invoicing and inventory for service teams?	0 of 15	none	Northvale FSM (9); Orbit Field (8); Trakwell (6)

Lost questions, named 0 of 15: q5 How does field service management software differ from general work order software?; q10 Which platforms combine scheduling, invoicing and inventory for service teams?.

Engine by engine

ENGINE	NAMED (OF 30)	RATE	95% INTERVAL
ChatGPT	15 of 29	51.7%	34.4% to 68.6%
Claude	13 of 30	43.3%	27.4% to 60.8%
Perplexity	9 of 29	31.0%	17.3% to 49.2%
Google AI Overviews	1 of 29	3.4%	0.6% to 17.2%
Google AI Mode	9 of 30	30.0%	16.7% to 47.9%

Run to run: run 1 15 of 48, run 2 16 of 50, run 3 16 of 49. Spread 1.

Scope, exclusions and crawler access

Scope

Ten buyer questions in one category, put to ChatGPT, Claude, Perplexity, Google AI Overviews and Google AI Mode three times each between the capture dates on the cover. Every answer was stored in full with its cited URLs before scoring. Named means an exact, case-insensitive match of the company name or an alias with no letter, digit or underscore on either side; a plain-word name also needs a qualifier within five words in the same sentence unless the answer cites the company's own domain. Cited means named and a cited URL on the company's own domain. Excluded answers leave the base and are never counted as "not named". Every rate carries its numerator, its base and a 95% Wilson interval.

Kalvenor Systems is a fictional company. Its competitors, every source domain (.example) and every answer in this file are sample data from the public sample at app.broadcastwell.com/sample: the ten shortlist questions of that sample across its three scheduled runs. Nothing here describes a real vendor.

Exclusions

- `q2 · Google AI Overviews · run 3` NoOverview
- `q3 · Perplexity · run 1` Timeout
- `q8 · ChatGPT · run 1` Timeout

Crawler access

Checked 13 July 2026 (sample): `https://kalvenor.example/robots.txt`. Present. It names GPTBot and Google-Extended and blocks Google-Extended only. GPTBot, OAI-SearchBot, ChatGPT-User, ClaudeBot, Claude-User, PerplexityBot and Perplexity-User are not blocked. Sitemap present with 184 URLs. llms.txt absent (404). Not tested: bot filters or firewall rules that answer crawler user agents differently, and homepage status under each crawler user agent. Access is not indexing.

Receipts file

`receipts.csv`: 150 rows, every answer in full with engine, run, capture time, cited URLs and the scoring. SHA-256 `1194b99f2d6654e85a87662f8f2a7ca1c916b9bc74e0724bbec23c10de5151ed`. The appendix in this file shows each answer's first 40 words; the CSV carries the whole answer.

Who is named instead

In the 100 answers that left Kalvenor Systems out, these are the vendors the engines named. Counts are over all 147 valid answers and over the 100 that left you out; "top cited domain" is the domain cited most often in the answers that name that vendor.

VENDOR	NAMED, ALL ANSWERS	95% INTERVAL	IN ANSWERS WITHOUT YOU	QUESTIONS NAMED	TOP CITED DOMAIN
Northvale FSM	110 of 147	67.2% to 81.2%	74 of 100	10 of 10	trakwell.example (29)
Asterforge	41 of 147	21.3% to 35.6%	30 of 100	6 of 10	asterforge.example (11)
Trakwell	46 of 147	24.4% to 39.2%	27 of 100	8 of 10	asterforge.example (15)
Orbit Field	34 of 147	17.0% to 30.6%	25 of 100	5 of 10	servicetechforum.example (10)
Cindermark	35 of 147	17.6% to 31.3%	24 of 100	4 of 10	asterforge.example (8)
Verano FSM	24 of 147	11.2% to 23.1%	22 of 100	4 of 10	hvacoperations.example (8)

Kalvenor Systems itself: 47 of 147, 25.0% to 39.9%, 8 of 10 questions. Vendors on the tracked list that no answer named are not shown.

The sources those answers cite

Domains cited in the answers, ranked by how many of the 147 valid answers cite them, with the vendors those answers name. 13 domains were cited in all; the top 13 are shown here and every domain is in sources.csv.

DOMAIN	ANSWERS CITING IT	IN ANSWERS WITHOUT YOU	NAMING YOU	VENDORS THOSE ANSWERS NAME
trakwell.example	39 of 147	30 of 100	9	Northvale FSM (29), Trakwell (14), Asterforge (10)

Kalvenor Systems's own domain was cited in kalvenor.example (17) answers. Answers that cited it without naming Kalvenor Systems: 0.

Three fixes

Three changes, ranked by the evidence above. Each names a role on your team, a done check anyone can run, and the number the recheck watches. None of them is a promise about what the engines will do.

1 Publish one comparison page that answers the two lost questions with product evidence

OWNER	Content lead
EVIDENCE	q5 (how the category differs from general work order software) and q10 (scheduling, invoicing and inventory in one platform) named Kalvenor 0 of 15 each. Northvale FSM was named 11 and 9 times on those questions; the answers cite trakwell.example (30) and hvacoperations.example (22) most when they leave Kalvenor out.
DONE CHECK	A page at a stable URL answers both questions in its first 100 words with dated product facts, and the two most-cited third-party pages link to it or list Kalvenor.
RECHECK	Named count on q5 and q10 across all five engines at the recheck.

2 Get Kalvenor listed on the pages Google AI Overviews cites when it leaves Kalvenor out

OWNER	Product marketing
EVIDENCE	Google AI Overviews named Kalvenor in 1 of 29 valid answers, against 15 of 29 on ChatGPT and 13 of 30 on Claude. Its answers without Kalvenor cite trakwell.example, cindermark.example and servicebuyersguide.example.
DONE CHECK	servicebuyersguide.example and hvacoperations.example list Kalvenor in their field service software pages with the pricing model and offline capability stated, on a dated check.
RECHECK	Google AI Overviews named count on all ten questions at the recheck.

3 Add recurring maintenance contract and offline detail to the dispatch page

OWNER	Product marketing
EVIDENCE	q6 (recurring maintenance contracts) named Kalvenor 5 of 15 and q8 (offline in the field) 3 of 15; kalvenor.example is cited in 17 answers, so the engines read the site when it surfaces. robots.txt blocks Google-Extended, which does not affect the five engines measured here.
DONE CHECK	kalvenor.example/platform/dispatch states recurring contract handling and offline behavior in dated, checkable terms, and is linked from the main navigation.
RECHECK	Named count on q6 and q8 at the recheck.

CMO summary

THE NUMBER

47 of 147

32.0%, 25.0% to 39.9%. 8 of 10 questions.

WHO TAKES YOUR PLACE	Northvale FSM (74 of 100), Asterforge (30 of 100), Trakwell (27 of 100).
WHERE ENGINES DIFFER	Strongest ChatGPT (15 of 30), weakest Google AI Overviews (1 of 30).
WHERE THE ANSWERS COME FROM	trakwell.example (30), hvacoperations.example (22), cindermark.example (19), cited in the 100 answers that left you out.
THE THREE FIXES	1. Publish one comparison page that answers the two lost questions with product evidence. Owner: Content lead. Done when: A page at a stable URL answers both questions in its first 100 words with dated product facts, and the two most-cited third-party pages link to it or list Kalvenor. 2. Get Kalvenor listed on the pages Google AI Overviews cites when it leaves Kalvenor out. Owner: Product marketing. Done when: servicebuyersguide.example and hvacoperations.example list Kalvenor in their field service software pages with the pricing model and offline capability stated, on a dated check. 3. Add recurring maintenance contract and offline detail to the dispatch page. Owner: Product marketing. Done when: kalvenor.example/platform/dispatch states recurring contract handling and offline behavior in dated, checkable terms, and is linked from the main navigation.
WHAT SUCCESS LOOKS LIKE AT DAY 30	The recheck on the same ten questions names you more often in every run than the highest of today's three runs (16 of 50). A change inside that spread is run noise.
RECEIPTS	150 answers in receipts.csv. Method v1.1.

SECTION 8 OF 10

Finance memo

To: Kalvenor Systems, finance copy. From: Sairam Sivakumar, Founder, Broadcastwell. Order `SAMPLE-KALVENOR-FICTIONAL`.

WHAT WAS BOUGHT	This fictional sample records a $490 charge, paid 2026-07-06.
WHAT IT COST YOU	$490. No subscription, no renewal, no further charge.
REFUND TERMS	Refundable in full, no questions asked, if requested within 30 days of delivery (until 13 August 2026).
WHAT WAS MEASURED	10 buyer questions, 5 engines, 3 runs, 150 planned answers, 147 valid, captured 2026-07-08 to 2026-07-12. Method v1.1.
WHAT THE EVIDENCE SHOWS	In 100 of 147 answers to these ten buyer questions, the engines gave a shortlist that did not include Kalvenor Systems. Northvale FSM was on 74 of those shortlists. 2 of the 10 questions never named Kalvenor Systems in any run. That is the observed cost of leaving things as they are. No revenue figure is attached to it, because none was measured.
CREDIT	The $490 entry credits once against the $3,900 Fix Sprint, leaving $3,410. Commercial terms updated 26 October 2026. This sample records no payment.
WHAT SUCCESS MEANS AT DAY 30	The three fixes are marked done (each has a done check), and a recheck names you more often in every run than the highest of today's runs (16 of 50). Not a revenue promise.

Receipts

Every answer, in the order question, engine, run. Each entry shows the engine, the run, the capture time, whether Kalvenor Systems was named, the first 40 words of the answer and the URLs the answer cited (shown without query strings; the CSV carries each URL in full). Excluded answers are marked with their reason.

SECTION 10 OF 10

Credit note

Credit note for order `SAMPLE-KALVENOR-FICTIONAL`. Kalvenor Systems. Delivered 14 July 2026.

THE CREDIT	Illustrative credit for a paid Audit. The $490 entry credits once against the $3,900 Fix Sprint, leaving $3,410. Commercial terms updated 26 October 2026. This sample records no payment. The credit is applied once and is not cash.
READING A RECHECK	When the same questions are measured again on the same five engines, three runs each, under the same method, a change clears the observed baseline run range only when the lowest recheck run is above the highest baseline run (16 of 50); otherwise the observed run ranges overlap. This rule is descriptive, not a statistical significance test.
REFUND	This Audit is refundable in full, no questions asked, if requested within 30 days of delivery, until 13 August 2026.
