Retired rehearsal format (orders before 26 October 2026)

FieldEdge

Field service management software

Order	REHEARSAL-FSM-FIELDEDGE	Question set	Release 2026-09
Method	v1.1	Answers captured	2026-09-22
Delivered	2026-09-26		

Five engines: ChatGPT, Claude, Perplexity, Google AI Overviews and Google AI Mode. Ten buyer questions, three runs each. 150 planned answers, 150 valid, 0 excluded.

Verdict 2
Question by question 3
Scope, exclusions and crawler access 4
Who is named instead 5
The sources those answers cite 6
Three fixes 7
CMO summary 8
Finance memo 9
Receipts 10
Credit note 41

Accountable: Sairam Sivakumar, Founder, Broadcastwell.

Not a client deliverable and never sent. Built at $0 from the public Absence Index record, release 2026-09 (DOI 10.5281/zenodo.22907695); no new measurement. Five of these ten Index questions name a brand (q4 to q8; q8 names FieldEdge); a real Audit set names none.

SECTION 1 OF 10

Verdict

FieldEdge was named in 44 of 150 answers to the ten buyer questions.

44

of 150 valid answers

29.3%

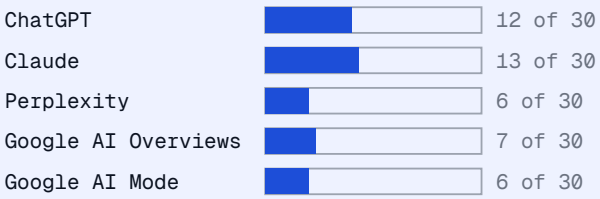

95% interval 22.6% to 37.1%

named on 8 of 10 questions

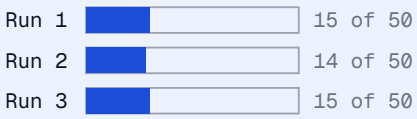

1. **Who takes your place.** Housecall Pro was named in 80 of the 106 answers that left FieldEdge out; ServiceTitan in 61, FieldPulse in 44.
2. **Where you lose.** Named 0 of 15 on q7, q9. Strongest engine Claude (13 of 30), weakest Perplexity and Google AI Mode (6 of 30 each). Run to run: 15 of 50, 14 of 50, 15 of 50, spread 1.
3. **What moves it.** Three fixes with an owner and a done check each. The recheck signal is every run above today's highest run, 15 of 50.

5 of the 10 questions name a brand. They are reported separately: named in 31 of 75 answers on brand-naming questions and 13 of 75 on generic questions (17.3%, 10.4% to 27.4%).

BY ENGINE, NAMED OF 30

BY RUN, NAMED OF 50

Single-turn, logged-out answers, US English, captured 2026-09-22. AI answers vary by run, date and account, so each question ran three times and the spread is reported. This is an observed baseline, not a ranking and not a statement about product quality.

SECTION 2 OF 10

Question by question

#	QUESTION	NAMED	ENGINES THAT NAMED YOU	MOST NAMED ON THIS QUESTION
q1	what is the best field service software for a small HVAC company	4 of 15	ChatGPT, Claude, Google AI Mode	Housecall Pro (15); ServiceTitan (10); Workiz (9)
q2	best field service management software for a growing plumbing company with about 10 techs	6 of 15	ChatGPT, Claude	ServiceTitan (15); Housecall Pro (15); FieldPulse (12)
q3	best field service software for commercial mechanical and fire protection contractors	1 of 15	Claude	ServiceTrade (15); simpro (13); BuildOps (12)
q4	what are the best alternatives to ServiceTitan names a brand	11 of 15	ChatGPT, Claude, Google AI Mode, Google AI Overviews, Perplexity	Housecall Pro (15); ServiceTitan (14); Service Fusion (12)
q5	what are the best alternatives to Housecall Pro names a brand	4 of 15	ChatGPT, Google AI Overviews, Perplexity	Housecall Pro (15); ServiceTitan (13); Workiz (13)
q6	what are the best alternatives to Jobber for a home service business names a brand	1 of 15	Perplexity	ServiceTitan (15); Housecall Pro (15); Workiz (15)
q7	Jobber vs Housecall Pro for a plumbing business, which is better names a brand	0 of 15	none	Housecall Pro (15); Jobber (7)
q8	FieldEdge vs ServiceTitan, which one is worth the price names a brand	15 of 15	ChatGPT, Claude, Google AI Mode, Google AI Overviews, Perplexity	ServiceTitan (15)
q9	what should I look for when choosing field service management software	0 of 15	none	FieldPulse (2); ServiceTitan (1); Housecall Pro (1)
q10	which field service software is best for a one person HVAC business	2 of 15	Claude	Housecall Pro (15); Jobber (8); ServiceTitan (8)

Lost questions, named 0 of 15: q7 Jobber vs Housecall Pro for a plumbing business, which is better; q9 what should I look for when choosing field service management software.

Engine by engine

ENGINE	NAMED (OF 30)	RATE	95% INTERVAL
ChatGPT	12 of 30	40.0%	24.6% to 57.7%
Claude	13 of 30	43.3%	27.4% to 60.8%
Perplexity	6 of 30	20.0%	9.5% to 37.3%
Google AI Overviews	7 of 30	23.3%	11.8% to 40.9%
Google AI Mode	6 of 30	20.0%	9.5% to 37.3%

Run to run: run 1 15 of 50, run 2 14 of 50, run 3 15 of 50. Spread 1.

Scope, exclusions and crawler access

Scope

Ten buyer questions in one category, put to ChatGPT, Claude, Perplexity, Google AI Overviews and Google AI Mode three times each between the capture dates on the cover. Every answer was stored in full with its cited URLs before scoring. Named means an exact, case-insensitive match of the company name or an alias with no letter, digit or underscore on either side; a plain-word name also needs a qualifier within five words in the same sentence unless the answer cites the company's own domain. Cited means named and a cited URL on the company's own domain. Excluded answers leave the base and are never counted as "not named". Every rate carries its numerator, its base and a 95% Wilson interval.

Not a client deliverable and never sent. Built at $0 from the public Absence Index record, release 2026-09 (DOI 10.5281/zenodo.22907695); no new measurement. Five of these ten Index questions name a brand (q4 to q8; q8 names FieldEdge); a real Audit set names none.

Exclusions

- None. Every planned answer was valid.

Crawler access

Checked 26 September 2026: `https://fieldedge.com/robots.txt`. One group for all user agents disallows only /wp-admin/ and /healthcheck and lists the sitemap. None of GPTBot, OAI-SearchBot, ChatGPT-User, ClaudeBot, Claude-SearchBot, Claude-User, PerplexityBot, Perplexity-User, Google-Extended, Googlebot or Bingbot is named or blocked. Not tested: bot filters or firewall rules that answer crawler user agents differently, and homepage status under each crawler user agent (this workspace cannot send requests with crawler user agents). Access is not indexing.

Receipts file

`receipts.csv`: 150 rows, every answer in full with engine, run, capture time, cited URLs and the scoring. SHA-256 `3ca2d55dbe7ca9bf0e26419f5b2d127800b343c73984483d8deafad3d79589b9`. The appendix in this file shows each answer's first 40 words; the CSV carries the whole answer.

SECTION 4 OF 10

Who is named instead

In the 106 answers that left FieldEdge out, these are the vendors the engines named. Counts are over all 150 valid answers and over the 106 that left you out; "top cited domain" is the domain cited most often in the answers that name that vendor.

VENDOR	NAMED, ALL ANSWERS	95% INTERVAL	IN ANSWERS WITHOUT YOU	QUESTIONS NAMED	TOP CITED DOMAIN
Housecall Pro	108 of 150	64.3% to 78.6%	80 of 106	9 of 10	getjobber.com (46)
ServiceTitan	102 of 150	60.2% to 74.9%	61 of 106	9 of 10	fieldpulse.com (37)
FieldPulse	57 of 150	30.6% to 46.0%	44 of 106	8 of 10	fieldpulse.com (28)
Workiz	58 of 150	31.2% to 46.7%	41 of 106	7 of 10	getjobber.com (25)
Jobber	50 of 150	26.3% to 41.2%	32 of 106	8 of 10	getjobber.com (46)
Service Fusion	41 of 150	20.8% to 35.0%	27 of 106	5 of 10	getjobber.com (21)
simpro	28 of 150	13.2% to 25.7%	18 of 106	4 of 10	fieldservicesoftware.io (16)
ServiceTrade	23 of 150	10.4% to 22.0%	17 of 106	2 of 10	servicetrade.com (13)
Kickserv	20 of 150	8.8% to 19.7%	16 of 106	4 of 10	getjobber.com (14)
BuildOps	22 of 150	9.9% to 21.2%	15 of 106	3 of 10	fieldservicesoftware.io (13)
ServiceM8	19 of 150	8.3% to 18.9%	12 of 106	4 of 10	getjobber.com (15)
RazorSync	3 of 150	0.7% to 5.7%	2 of 106	1 of 10	fieldservicesoftware.io (3)
ServiceMax	2 of 150	0.4% to 4.7%	1 of 106	1 of 10	blazestack.com (2)
BigChange	1 of 150	0.1% to 3.7%	1 of 106	1 of 10	buildbite.com (1)

FieldEdge itself: 44 of 150, 22.6% to 37.1%, 8 of 10 questions. Vendors on the tracked list that no answer named are not shown.

The sources those answers cite

Domains cited in the answers, ranked by how many of the 150 valid answers cite them, with the vendors those answers name. 155 domains were cited in all; the top 20 are shown here and every domain is in sources.csv.

DOMAIN	ANSWERS CITING IT	IN ANSWERS WITHOUT YOU	NAMING YOU	VENDORS THOSE ANSWERS NAME
fieldpulse.com	52 of 150	35 of 106	17	Housecall Pro (39), ServiceTitan (37), FieldPulse (28)

fieldproxy.ai	14 of 150	7 of 106	7	Housecall Pro (14), ServiceTitan (14), Service Fusion (13)

FieldEdge's own domain was cited in fieldedge.com (23) answers. Answers that cited it without naming FieldEdge: 1.

SECTION 6 OF 10

Three fixes

Three changes, ranked by the evidence above. Each names a role on your team, a done check anyone can run, and the number the recheck watches. None of them is a promise about what the engines will do.

1 Check and correct FieldEdge on the three list pages Perplexity cites most when it leaves FieldEdge out

OWNER	Product marketing lead
EVIDENCE	Perplexity named FieldEdge in 6 of 30 answers, the joint lowest of the five engines. Its answers without FieldEdge cite softwareadvice.com (19), fieldservicesoftware.io (17) and capterra.com (13).
DONE CHECK	Each of the three sites lists FieldEdge in its field service or HVAC software list, with pricing model and features current on a dated check.
RECHECK	Perplexity named count on q1, q2, q3 and q10 at the recheck.

2 Publish one page that answers the small and one-person HVAC shortlist questions directly

OWNER	Web and content lead
EVIDENCE	On q1 (small HVAC company) FieldEdge was named 4 of 15 and on q10 (one-person HVAC business) 2 of 15, while Housecall Pro was named 15 of 15 on both. fieldedge.com is cited in 23 answers, so the engines do read the site when it surfaces.
DONE CHECK	A page at a stable URL answers 'best field service software for a small HVAC company' in its first 100 words, states who FieldEdge fits with dated facts (pricing model, team size, setup), and is linked from the main navigation or sitemap.
RECHECK	Named count on q1 and q10 across all five engines at the recheck.

3 Answer the same buyer questions in video, where Google's AI answers look

OWNER	Video or content lead
EVIDENCE	Google AI Overviews named FieldEdge 7 of 30 and Google AI Mode 6 of 30. Their answers without FieldEdge cite youtube.com more than any other domain (9 and 12 answers).
DONE CHECK	One video on the FieldEdge YouTube channel titled with a buyer question from this Audit, with FieldEdge's fit stated in the first two lines of the description.
RECHECK	Google AI Overviews and Google AI Mode named counts at the recheck.

SECTION 7 OF 10

CMO summary

THE NUMBER

44 of 150

29.3%, 22.6% to 37.1%. 8 of 10 questions.

WHO TAKES YOUR PLACE	Housecall Pro (80 of 106), ServiceTitan (61 of 106), FieldPulse (44 of 106).
WHERE ENGINES DIFFER	Strongest Claude (13 of 30), weakest Perplexity and Google AI Mode (6 of 30 each).
WHERE THE ANSWERS COME FROM	fieldpulse.com (35), fieldservicesoftware.io (35), housecallpro.com (32), cited in the 106 answers that left you out.
THE THREE FIXES	1. Check and correct FieldEdge on the three list pages Perplexity cites most when it leaves FieldEdge out. Owner: Product marketing lead. Done when: Each of the three sites lists FieldEdge in its field service or HVAC software list, with pricing model and features current on a dated check. 2. Publish one page that answers the small and one-person HVAC shortlist questions directly. Owner: Web and content lead. Done when: A page at a stable URL answers 'best field service software for a small HVAC company' in its first 100 words, states who FieldEdge fits with dated facts (pricing model, team size, setup), and is linked from the main navigation or sitemap. 3. Answer the same buyer questions in video, where Google's AI answers look. Owner: Video or content lead. Done when: One video on the FieldEdge YouTube channel titled with a buyer question from this Audit, with FieldEdge's fit stated in the first two lines of the description.
WHAT SUCCESS LOOKS LIKE AT DAY 30	The recheck on the same ten questions names you more often in every run than the highest of today's three runs (15 of 50). A change inside that spread is run noise.
RECEIPTS	150 answers in receipts.csv. Method v1.1.

Finance memo

To: FieldEdge, finance copy. From: Sairam Sivakumar, Founder, Broadcastwell. Order `REHEARSAL-FSM-FIELDEDGE`.

WHAT WAS BOUGHT	This rehearsal records an illustrative $490 charge; no payment was made.
WHAT IT COST YOU	$490. No subscription, no renewal, no further charge.
REFUND TERMS	Refundable in full, no questions asked, if requested within 30 days of delivery (until 26 October 2026).
WHAT WAS MEASURED	10 buyer questions, 5 engines, 3 runs, 150 planned answers, 150 valid, captured 2026-09-22. Method v1.1.
WHAT THE EVIDENCE SHOWS	In 106 of 150 answers to these ten buyer questions, the engines gave a shortlist that did not include FieldEdge. Housecall Pro was on 80 of those shortlists. 2 of the 10 questions never named FieldEdge in any run. That is the observed cost of leaving things as they are. No revenue figure is attached to it, because none was measured.
CREDIT	The $490 entry credits once against the $3,900 Fix Sprint, leaving $3,410. Commercial terms updated 26 October 2026. This sample records no payment.
WHAT SUCCESS MEANS AT DAY 30	The three fixes are marked done (each has a done check), and a recheck names you more often in every run than the highest of today's runs (15 of 50). Not a revenue promise.

Receipts

Every answer, in the order question, engine, run. Each entry shows the engine, the run, the capture time, whether FieldEdge was named, the first 40 words of the answer and the URLs the answer cited (shown without query strings; the CSV carries each URL in full). Excluded answers are marked with their reason.

q1 what is the best field service software for a small HVAC company

4 of 15 named

ChatGPT run 1 2026-09-22 20:45Z ● Named	I'd start with Housecall Pro for a small, primarily residential HVAC company. My recommendation is based on its combination of everyday scheduling and billing with HVAC-specific tools—not a claim that it's best for every shop. Its HVAC Essentials plan includes … https://www.housecallpro.com/industries/hvac-software https://www.getjobber.com/pricing https://fieldedge.com/pricing
ChatGPT run 2 2026-09-22 20:45Z ○ Not named	I'd start with Housecall Pro for a small HVAC company—assuming you mainly do residential service and replacement. My runner-up is Jobber, particularly for a solo operator who mostly needs scheduling, estimates, and invoicing. Based on the vendors' current published features … https://www.housecallpro.com/industries/hvac-software https://www.getjobber.com/pricing https://www.servicetitan.com/pricing

q10 which field service software is best for a one person HVAC business

ChatGPT run 1 2026-09-22 20:45Z ○ Not named	For a one-person HVAC business, I'd start with Housecall Pro Basic—assuming you mostly do residential service and repairs. If keeping overhead as low as possible is your priority, I'd choose Jobber Core instead. I checked their current published pricing; here's ... https://www.housecallpro.com/pricing https://help.getjobber.com/en/articles/the-core-plan https://www.getjobber.com/pricing
ChatGPT run 2 2026-09-22 20:45Z ○ Not named	For a one-person HVAC business, I'd start with Jobber—unless maintenance agreements and HVAC-specific pricing tools are central to your work. Assuming you mainly do residential service, I'd narrow it to these two rather than shop a dozen platforms. Jobber — ... https://www.getjobber.com/pricing https://www.housecallpro.com/pricing https://help.housecallpro.com/en/articles/9778163-how-to-use-price-book-by-housecall-pro https://www.housecallpro.com/llm-info
ChatGPT run 3 2026-09-22 20:45Z ○ Not named	For a one-person HVAC business, I'd start with Jobber Core—assuming you mainly need scheduling, estimates, invoices, and payments. It covers those basics without making you buy a multi-person plan. My runner-up is Housecall Pro, particularly if job costing and a ... https://www.getjobber.com/pricing https://www.housecallpro.com/pricing

SECTION 10 OF 10

Credit note

Credit note for order REHEARSAL-FSM-FIELDEDGE. FieldEdge. Delivered 26 September 2026.

THE CREDIT	Illustrative credit for a paid Audit. The $490 entry credits once against the $3,900 Fix Sprint, leaving $3,410. Commercial terms updated 26 October 2026. This sample records no payment. The credit is applied once and is not cash.
READING A RECHECK	When the same questions are measured again on the same five engines, three runs each, under the same method, a change clears the observed baseline run range only when the lowest recheck run is above the highest baseline run (15 of 50); otherwise the observed run ranges overlap. This rule is descriptive, not a statistical significance test.
REFUND	This Audit is refundable in full, no questions asked, if requested within 30 days of delivery, until 26 October 2026.
